SAEED PASHA

With over 35 years of comprehensive experience spanning across Health, Safety, and Environment (HSE), construction, logistics, and academia, Saeed Pasha brings a wealth of expertise to the table. His educational background includes an Executive Master of Business Administration (EMBA) with a specialization in Disaster Risk Management, complemented by professional affiliations with esteemed organizations such as the Institution of Occupational Safety and Health (IOSH-UK) and the American Society of Safety Professionals (ASSP-USA).

Throughout his career, he has held diverse roles and made impactful contributions across various sectors. From spearheading HSE initiatives in multinational corporations like Schlumberger Seaco Inc. to providing specialized services in the oilfield sector with Xperts Oilfield Services, his journey has been marked by a relentless commitment to ensuring the health, safety, and well-being of personnel and the environment.

His tenure with Capital Builders in Islamabad equipped him with invaluable insights into construction safety protocols and risk management practices, while his engagement with MOL B.V. involved strategic oversight of HSE functions within the oil and gas exploration and production domain.

Beyond his corporate endeavours, he has actively participated in academia, serving as a faculty member at Preston University, Islamabad. Here, he has had the privilege of imparting knowledge and nurturing future professionals in the realms of safety management and disaster risk mitigation.

His credentials as an approved trainer and assessor by international bodies such as the International Labour Organization (ILO), OTHM, Qualifi and NCON underscore his proficiency in delivering high-quality training programs and conducting assessments in areas ranging from risk management to hazardous waste operations.

Since December 2023, he has been providing HSE training services, conducting multiple sessions on different topics across various segments of **MPCL**, including the Head Office, Rig-1, Rig-3, and Rig-6 and all production sites. His competency, knowledge, and experience as an instructor have been highly commended.

In summary, his multifaceted career trajectory reflects a steadfast dedication to promoting safety, mitigating risks, and fostering a culture of excellence across industries. With a blend of firsthand experience, academic acumen, and a passion for continuous learning, he is poised to make meaningful contributions to any organization's HSE objectives and strategic endeavours.
